PRESS RELEASE #8

European Collaboration Strengthens Support for Vulnerable Children

The Healthy Mind, Healthy Child project demonstrates the power of European collaboration in addressing complex social challenges.

Partners from Croatia, Spain and Slovenia are working together to share knowledge, develop new methodologies and strengthen support systems for children. This collaboration allows organisations to exchange best practices and develop solutions that can be adapted across different European contexts.

The project also contributes to European priorities such as the EU Strategy on the Rights of the Child and the Action Plan on Integration and Inclusion.
